

## Monday February 3

---

1100 -1230

BUS 119

David Rahman

*Seminar: Competition Policy in Light of Innovation*

1400 -1530

BUS 119

David Rahman

*Lecture: A Linear Programming Approach to Economics (Part I)*

## Tuesday February 4

---

1100 -1230

BUS 119

David Rahman

*Lecture (Part II)*

1400 -1530

BUS 119

David Rahman

*Lecture (Part III)*

## Wednesday February 5

---

0930 -1100

BUS 130

David Rahman

*Lecture (Part IV)*

1400 -1530

BUS 119

Nageeb Ali

*Seminar: Coalitions in Repeated Games*

1930 -

Coogee Bay Hotel

Informal Drinks  
(all are welcome!)

---

**Poster Presentations** (Colombo Building ground floor)

---

Junqian Li

*Competing with Data in Credence Goods Market*

Hasini Kasundara Senadheera

*Efficient Level of Unemployment*

Chris Teh

*Sequential Monotone Comparative Statics*

Doriana Lingga

*Content Quota, Tariff, and Investment Obligation in the Audiovisual Market*

Bowei Shi

*Affirmative Action in School Choice with Housing Market*

Yibin Li

*Bayesian Persuasion with Additional Information*

Daniel "DJ" Thornton

*Learning with Feedback Loops*

Yunjie Shi

*Waiting and Preemption in Public Goods Contribution*

Anton Kolotilin and Hongyi Li

*On Monotone Persuasion*

Pei-Cheng Yu

*Managing Expectations under Technological Uncertainty with Taxes*

---

**All posters will be on display at the Colombo Building ground floor for all of Thursday and Friday. There will be two poster mixer sessions on 1030-1100 of each day (just before the keynote talks).**

0830 - 0850	Welcome Tea and Coffee (Colombo Building ground floor)		
0850 - 0900	Welcome Remarks (Colombo Theatre A)		
	<b>Session 1a</b> (Colombo Theatre A)	<b>Session 1b</b> (Colombo LG01)	<b>Session 1c</b> (Colombo LG02)
	Onur Kesten Who makes the cut? Endogenous priority design for heterogeneous groups of agents	Metin Uyanik Excess Demand Approach with Non-convexity and Discontinuity	Yingkai Li Coordination under costly signaling
0900 -1030	Mert Kimya Power, Status, and the Stability of Hierarchies	Jingni Yang Dynamic programming: optimality at a point implies optimality everywhere	Kun Zhang From design to disclosure
	Isa Hafalir Design on matroids: diversity vs. meritocracy	Carlos Pimienta Robust equilibria in generic extensive-form games	
1030 -1100	Poster Session Mixer I (Colombo Building ground floor)		
1100 -1200	Keynote Lecture: Nageeb Ali "When Colleges Compete: Signals, Noise, and Equilibrium Outcomes" (Colombo Theatre A)		
1200 -1330	Lunch (Colombo Building ground floor)		
	<b>Session 2a</b>	<b>Session 2b</b>	<b>Session 2c</b>
	Ellen Muir Optimal opaqueness: Multi-product monopoly pricing without contractual restrictions	Dan McGee An Economic Theory of Implicit Bias	Pei-Yu Melody Lo Decentralized Learning in Multi-Issue Two-Party Elections with Limited-Attention Voters
1330 -1500	Francisco Silva On whether impartial peer-review mechanisms can replace outside reviewers	Manuel Staab Cooperating on networks: inequality and social structure	Liuchun Deng Believers vs skeptics: experimentation in public good provision
	Simon Loertscher Bargaining among partners	Carlos Oyarzun Bayesian Nudges	Jiemai Wu Group Cascades in Strategic Voting
1500 - 1530	Coffee Break (Colombo Building ground floor)		
	<b>Session 3a</b>	<b>Session 3b</b>	<b>Session 3c</b>
	Allen Vong Mediated Repeated Moral Hazard	Simona Fabrizi Attack, Defense, and the Market for Protection	Antonio Rosato The Missing Loser's Curse
1530 -1700	Parimal Bag Signaling in Repeated Delegation	Gregory Kubitz Sharing Cost Information in Dynamic Oligopoly	Evan Calford Validated RIS: A within subject test of incentive compatibility in the random (lottery) incentive scheme
	Luis Vasconcelos Managing Loyalties in Hierarchical Organizations		
1700 -2100	Drinks and Workshop Dinner (UNSW Lounge)		

0830 - 0850	Welcome Tea and Coffee (Colombo Building ground floor)		
	<b>Session 4a</b> (Colombo Theatre A)	<b>Session 4b</b> (Colombo LG01)	<b>Session 4c</b> (Colombo LG02)
	Takashi Kunimoto Robust Implementation in Rationalizable Strategies in General Mechanisms	Vladimir Smirnov Elimination tournaments with resource constraints	Nawaaz Khalfan Forecast Elicitation and Frequency Control
0900-1030	Wei He Interim Regret Minimization	Allan Hernandez Chanto Optimal Scaling Auctions: A Consumer Theory Deconstruction	Youngsub Chun Cost-Symmetric Transfer Rules for Queueing with Arrivals
	Mariann Ollar Incentive Compatibility and Belief Restrictions	Chang Liu Hail Mary Pass: Contests with Stochastic Progress	Matthew Ryan Cycle conditions for Luce rationality
1030-1100	Poster Session Mixer II (Colombo Building ground floor)		
1100-1200	Keynote Lecture: David Rahman "Organized Competition with Translucent Teams" (Colombo Theatre A)		
1200-1330	Lunch (Colombo Building ground floor)		
	<b>Session 5a</b>	<b>Session 5b</b>	<b>Session 5c</b>
	Martin Szydlowski Deprioritizing Content	Heiko Gerlach Patent Exhaustion and Licensing in the Supply Chain	Alexander Rodivilov Information Alliance in Common Agency
1330-1500	Isaac Swift A Recommendation Game	Robert Akerlof Coordinating Supply Chains	Duygu Yengin When and with Whom to Negotiate: Optimal Agenda under Quota Rules
	Gabriele Gratton Targeted Persuasion		Steffen Lippert Leadership and Cooperation in a Sequential Prisoners' Dilemma
1500-1515	Concluding Remarks (Colombo Theatre A)		
1515-1645	Informal Drinks (Colombo Building Ground Floor)
